

Main user view - My IIM. Only individual user's folders are visible in the navigation panel. The 'Public' library is inactive (not visible). The international folder is selected and the content files in the lower 2 panels relate to the selected folder (having been placed there by the user).

Creating a New Personal Folder within the MY IIM View

User presses Gear icon to manage personal folders.
'Edit Existing' reveals standard delete controls in navigation panel. Pressing and holding a folder name for I sec. pops up the folder graphic w/blue background and key pad to allow folder to be renamed.
